FIBER IN A FLASH: WHAT'S NEW & WHAT YOU NEED TO KNOW

4:30PM - 5:30PM
Wednesday,
April 29, 2026

Rochester JATC
3540 Winton Place,
Rochester, NY 14623

Free for EAWNY Members | \$10 for Non-EAWNY Members

What to Expect:

Fiber Today: The Big Picture

- What's happening in the world of fiber right now
- Why data centers, AI, and Broadband are driving massive growth
- Faster speeds, higher fiber counts, higher expectations

Trends & Emerging Technologies

- Single-mode vs. multimode: where the industry is heading
- High-density fiber, ribbon cable, and MPO/MTP growth
- What "future-ready" really means

Splicing 101: Ask These Questions First

Before you splice, make sure you know:

- Single-mode or multimode (OM3/OM4/OM5/OS2)?
- Fiber count and cable type (loose tube, ribbon, armored)
- Connector type and polish (LC, SC, MPO | UPC vs. APC)
- Environment and performance requirements
- What parts match—and what doesn't

Rapid-Fire Wrap-Up & Q&A

- Top mistakes to avoid
- Open Q&A
